Letter of Recommendation for
Dr. Xiuquan Wang

Dear Sir or Madam:

It is my pleasure to write this recommendation for Dr. Xiuquan Wang for the Faculty Resource Network. I fully support Dr. Wang in his effort to be selected for this program.

Dr. Wang has impressed me with the energy he brings to the classroom and the department. Dr. Xiuquan Wang in a short time has become a valued member of the department. Dr. Wang is committed to continuing his research and pursuing other scholarly activities. He recently presented the paper "Insect Drift Movement Modeling and Parameter Estimations via Boundary Characteristics" at the 2016 Joint Mathematics Meeting of the AMS Session on Mathematical Biology and Related Fields I in Seattle, WA.

Dr. Wang is an excellent candidate for this program. His expertise in Topology, Statistics and Bioinformatics have prepared him to be successful in completing the proposed project "Uncovering and Understanding Population Differences with Topological Methods". I wholeheartedly recommend Dr. Xiuquan Wang and support his research. Please contact me if you have further questions.

Sincerely,

Sharron T. Streeter, Chair
Mathematics & Computer Science Department
Tougaloo College
