To Whom It May Concern:

It is a pleasure to write this letter in support of Dr. Xiuquan Wang's tenure and promotion as an Assistant Professor of Mathematics at Tougaloo College. I strongly believe that his contributions to Tougaloo College (TC), as well as, to the field of Mathematics, make him deserving of this opportunity.

I met Dr. Wang when he began working at TC in August 2015. He was new to the campus, but quickly caught on to the enthusiastic spirit of teaching and commitment at the college. Many times he arrived early and stayed late to tutor his students. He wanted to see everyone do well and it showed. His students say that he demands much from them, yet he is fair and devoted.

He is dedicated to research. He is a member of several professional organizations and has presented at both local and national conferences. He was selected as an investigator with the Mississippi Center for Clinical and Translational Research (MCCTR) in July 2017. He has met all of the deliverables and is currently writing his own research grant.

On a personal level, I have worked with Dr. Wang on several committees related to student research. He always offer the students excellent advice related to their projects. Also, when the Jackson Heart Study needed someone to teach Biostatistics at the last minute, Dr. Wang readily stepped in and provided the guidance that we needed.

In conclusion, Dr. Wang is a devoted professor who will continue to make significant contributions to research and teaching. A person who works this hard deserves to advance. Therefore, it would be my privilege to offer support, as well as, highly recommend Dr. Wang for promotion.

Sincerely,

Wendy B. White
