DATE: **December 9, 2019**

REF: **Fall 2019 Appraisal Reports for Professor Xiuquan Wang**

The attached report represents the data gathered from students enrolled in **MAT 31601 Differential Equations,** taught by **Professor Wang.** Excluding student directory information, the survey consists of seventeen **(17)** instructor related items, providing students with five choices for each statement **(1-Strongly Disagree, 2-Disagree, 3-Undecided, 4-Agree, 5-Strongly Agree).**

A total of two **(2)** booklets were processed for this report using the ***OpScan 4ES Scanner System*** paired with ***Bubble Publishing Scan Shop*** and ***Report Shop Data Analysis Software***. For your convenience, the findings are presented in **table and bar graph** formats. Each ***[table]*** has a column noting the ***[choices]*** that are provided for each survey item, how many participants selected a particular choice ***[count]*** and a corresponding ***percent column***. An individual table mean appears at the bottom of ***each analysis table***. The same data appear in ***[bar graph]*** format to the right of each table. Finally, a Total Mean Table for all survey items is provided on the last page of the Item Analysis Report.

Students provided an instructional satisfaction rating of **4.76** for **Professor Wang (4-Agree).** Students enrolled in this class offered the following written comment(s) in their evaluation of this professor.
